

Evangelos C. Papakitsos

Dr. Evangelos C. Papakitsos is a member of the Laboratory Teaching Staff of the Department of Industrial Design and Production Engineering at the University of West Attica. He is a Physicist (National & Kapodistrian University of Athens, 1987) with postgraduate studies in Information Systems (University of Liverpool, 1992), Career Guidance and Counseling (Athens University of Economics & Business, 2000; Panteion University of Social & Political Sciences, 2008), and a doctoral degree of Informatics (National & Kapodistrian University of Athens, 2000) in Natural Language Processing with post-doctoral research in Semantic Lexical Databases (2001) and Machine Translation (2004). His research interests include fields of Digital Humanities (e.g., Education, Counseling, Career Guidance, Linguistics), Systems Science, natural language engineering, environmental monitoring, energy and power systems, applications of robotics and optimization methods in operational research, management and engineering. He is an author or co-author (2021) of more than 200 articles, published in scientific journals or conference proceedings, book chapters, books, monographs, software documentation and other engineering studies. Since 1993, he has conducted undergraduate and postgraduate courses in four tertiary education institutions (SELETE/ASPETE, TEI of Piraeus, National & Kapodistrian University of Athens and National Technical University of Athens) and, finally, he had been occupied in the private and public secondary and post-secondary education (1990-2018) as a teacher of Informatics and Physics, and as a Career Counselor.
